

## Cardiac Educator Alice Springs

Healthy Living NT seeks the services of a cardiac educator to join its diabetes and cardiac education team, based in Alice Springs. The prime objectives of the position are to:

- ◆ coordinate, implement and evaluate a comprehensive cardiac rehabilitation in Alice Springs , provide a telephone service to other areas of Central Australia
- ◆ potential travel to remote and regional areas of the Northern Territory to provide cardiac education in coordination with other medical and allied health staff
- ◆ act as a resource person to other health professionals and to participate in educational programs for the community in regard to cardiac rehabilitation
- ◆ coordinate the development of educational resources appropriate for Alice Springs and the Northern Territory clients and health professionals

All performance and conduct of duties shall be carried out in accordance with the principles of best practice, and in line with Healthy Living NT's Guiding Values and objectives identified in HLNT's Strategic Plan.

The position is available up to a full time basis and pay will be commensurate with experience.

The position description and selection criteria can be obtained from
