

The Australian Cardiovascular Health and Rehabilitation Association (ACRA)

Strategic Plan November 2023-2026

Our 2023-2026 Strategic Plan is the ACRA executive committee's foundational document that informs our planning and the way we work for our members

Our Vision

To achieve optimal and equitable outcomes for all affected by cardiovascular disease.

Our Mission

The Australian Cardiovascular Health and Rehabilitation Association provides support and advocacy for multidisciplinary health professionals to deliver evidence-based best practice across the continuum of cardiovascular care.

We do this by:

- Supporting the development and delivery of evidence-based, standardised cardiac rehabilitation program content, models of care and modes of delivery,
- Promoting cardiac rehabilitation program measurement of quality and outcomes,
- Amplifying the voice and experience of the members we serve,
- Providing and promoting up to date professional development opportunities,
- Advocating for cardiac rehabilitation research, quality improvement and implementation to practice,
- Partnering with others to innovate and influence and
- Creating a diverse and inclusive environment of mutual respect, regardless of sex, gender identity, sexual orientation, language, race, marital status, religious, cultural and ethnic backgrounds or disabilities. (WHO <https://www.who.int/careers/diversity-equity-and-inclusion>)
